WORK EXPERIENCE

Software Developer - CR Contracting Corp. Summer 2014, 2015

◦ Wrote proprietary algorithms to reduce costs and increase efficiencies on construction projects (lower man hours and project durations).

◦ Data and project analysis algorithms have been fully deployed throughout all of CR's work and are now integral to pricing and staging phases.

Cofounded - Craymer-Pellaton Technologies

August 2012

◦ Created a business that produced both advertising and personal videos in a paid and charitable capacity.

◦ Provided insight into working with others, managing clients & business funds and working towards deadlines with aggressive demands.

◦ Opportunity to foray into the business world at an early age and to formulate management and interaction skills.

PERSONAL PROJECTS

more at <http://cepp.at/projects>

PGE -- Pretty Good Email

Javascript, Node.js

A local PGP email encryptor designed to step into the FastMail HTTP stack and integrate with Keybase.

HOTLINE-BING

MEAN Stack, Twilio, Priceline API

From YHACK 2015 (won two API challenges). An SMS service that lets you search Bing or book a hotel using Priceline. Includes payment handling from Braintree.
